Energy Sources

Volume 3

Contents

A letter from the Publisher		vii
J. R. Bowden	Prospects for Coal as a Direct Fuel and its Potential Through Application of Liquefaction and Gasification Technology	1
R. A. Meyers, J. W. Hamersma, R. M. Baldwin, J. G. Handwerk, J. H. Gary, *and* J. O. Golden	Low-Sulfur Coal Obtained by Chemical Desulfurization Followed by Liquefaction	13
James Y. F. Low, K. J. Klabunde, N. F. Woolsey, R. J. Baltisberger, M. Govek, *and* V. I. Sternberg	Catalytic Hydrogenation of Solvent-Refined Lignite to Liquid Fuels	19
Yu-Ping Hsia *and* T. F. Yen	Evaluation of Coal Liquefaction Efficiency Based on Various Ranks	39
D. K. Young *and* T. F. Yen	Oxidation of Lignite into Water-Soluble Organic Acids	49

Alan Davis, William Spackman, *and* Peter H. Given	The Influence of the Properties of Coal on Their Conversion Into Clean Fuels	55
John O. Robertson *and* G. V. Chilingar	Book Review	83
Recent Books		85
J. Robert Fluor	*Guest Editorial:* Present and Future Energy Sources: Their Impact on You	89
N. F. Shimp, J. K. Kuhn, *and* R. J. Helfinstine	Determination of Forms of Sulfur in Coal	93
Max Samfield	Hazardous and Toxic Air Pollutants	111
Harold J. Gluskoter	Inorganic Sulfur in Coal	125
John Kowalski *and* Walter H. Fertl	Application of Geophysical Well Logging to Coal Mining Operations	133
R. P. Philp *and* E. Yang	Alkaline Potassium Permanganate Degradation of Insoluble Organic Residues (Kerogen) Isolated from Recently-Deposited Algal Mats	149
H. R. Appell, E. C. Moroni, *and* R. D. Miller	Hydrogenation of Lignite with Synthetic Gas	163
D. L. Klass	A Long-Range Approach to the Natural Gas Shortage Utilizing Nonfossil Renewable Carbon	177
Book Review		197

Meyer Steinberg, Morris Beller *and* James R. Powell	A Survey of Applications of Fusion Power Technology for the Chemical and Material Processing Industry	207
Richard L. Liboff	Hydroelectric Solar Energy Conversion	255
S. B. King, C. F. Brandenburg *and* W. J. Lanum	Characterization of Nitrogen Compounds in Tar Produced from Underground Coal Gasification	263
Brian Horsfield *and* R. O. Williams	Energy for Agriculture and the Gasification of Crop Residues	277
Lewis P. Leibowitz	California's Geothermal Resource Potential	293
Noel D. Uri	System Load Forecasts for an Electric Utility	313
Shaik A. Qader	Catalytic Hydrosolvation Process Converts Coal to Low Sulfur Liquid Fuel and Distillate Oils	323
T. F. Yen	The Nature of Vanadium Complexes in the Refining of Heavy Oil	339
Patrick J. Starr	Crop Residues as Energy Sources: Assessing the Cost and Energy Feasibility of Direct Firing	353
Walter H. Fertl *and* George V. Chilingarian	Tar Sand Evaluation Using Geophysical Well Logs	375
T. F. Yen	Microbial Recovery of Hydrocarbons	385
S. S. Marsden *and* George V. Chilingarian	New Methods of Petroleum Transportation	389

	CONFAB '77 Government, Industry and Academic Technical Conference on Fossil Fuel Chemistry and Energy	395
George V. Chilingarian	Journal of Volcanology and Geothermal Research	402

Author Index

Appell, H. R.; Moroni, E. C.; Miller, R. D., *Hydrogenation of Lignite with Synthetic Gas*, Vol. 3 No. 2 p. 163.

Baldwin, R. M.; Meyers, R. A.; Hamersma, J. W.; Handwerk, J. G.; Gary, J. H.; Golden, J. O., *Low-Sulfur Coal Obtained by Chemical Desulfurization Followed by Liquefaction*, Vol. 3, No. 1, p. 13.

Baltisberger, R. J.; Low, James, Y. F.; Klabunde, K. J.; Woolsey, N. F.; Govek, M.; Sternberg, V. I., *Catalytic Hydrogenation of Solvent-Refined Lignite to Liquid Fuels*, Vol. 3, No. 1, p. 19.

Beller, Morris; Steinberg, Meyer; Powell, J. R., *A Survey of Applications of Fusion Power Technology for the Chemical and Material Processing Industry*, Vol. 3, Nos. 3/4, p. 207.

Bowden, J. R., *Prospects for Coal as a Direct Fuel and Its Potential through Application of Liquefaction and Gasification Technology*, Vol. 3, No. 1, P. 1.
